

OPTIONAL FORM NO. 10
MAY 1962 EDITION
GSA FPMR (41 CFR) 101-11.6
UNITED STATES GOVERNMENT

~~SECRET~~

Memorandum

TO : Director of Training

DATE: 26 September 1962

FROM : Chief, Headquarters Training

SUBJECT: Weekly Activities Report No. 33 - 20-26 September 1962

A. SIGNIFICANT ITEMS

Nothing to report.

B. OTHER ITEMS

1. Information Reporting, Reports, and Requirements (IRRR)

Tutorial instruction for five students continues. Three will finish 28 September, two after six more days of training.

2. Counterintelligence Familiarization (CI/FAM)

Training reports for students recently completing tutorial instruction have gone forward.

25X1A

3. Counterintelligence Operations (CI/OPS)

a. A schedule for course No. 46, to begin 8 October, has been drafted. Seven students are enrolled to date. On 24 September I discussed with representatives of SR [REDACTED] their part in the course. Certain minor changes on the section concerned with the RIS will be made.

25X1A6b

b. On 21 September I met with representatives of the CE Section, [REDACTED] and received from them twelve studies on East [REDACTED] operations. A few have English translations and will make a useful addition to our collection of supplementary course reading materials. It is interesting that these studies were prepared by [REDACTED] services personnel for training purposes. A duplicate set of photographs showing [REDACTED] devices may have use at [REDACTED]. I therefore sent the set to [REDACTED]. After a further review of the above-noted cases, it may be that some would have better use at [REDACTED] than here. They would then be made available as appropriate.

4. Clandestine Services Review (CSR)

25X1A9a

Course No. 35 was completed by twenty-five students on 21 September. Mr. [REDACTED] reports that they were highly impressed by the appearance of the DDCI, the four deputy directors and the Executive Director. In general, the course went very well, had a minimum of problems and appeared to satisfy student needs.

5. Records Officers Course (ROC)

25X1A6a

Course No. 15 began 24 September with an enrollment of twenty-seven persons.

6. [REDACTED]

Tutorial instruction for two persons continues.

7. Counterinsurgency Program Planning Course

25X1A9a

The first draft of the course schedule has been completed by Mr. [REDACTED]. Nominations of students from State, USIA, AID, and DOD are expected by 28 September. Current CIA enrollment is seven--two from FE, two from AF, three from NE. Mr. [REDACTED] 25X1A9a soliciting additional candidates for the course.

8. Staff Member Activities:

25X1A9a

a. Mr. [REDACTED] gave a lecture on Counterinsurgency [REDACTED] 5b on 21 September to students in the OC and the OFC.

b. I completed my review of the [REDACTED] project files and have transferred them to SIC. The case is not suitable for our purposes here. It is a study in field-headquarters disagreement as to what was or was not a CP penetration operation. 25X1A2d1

25X1A2d1

25X1A8a

c. I am continuing the review, originally begun by Mrs. [REDACTED] 9a of the [REDACTED] project files. They were made available to us some time ago by the [REDACTED]. Here again is a dreary example of an operation that went sour, largely because of improper regard for sound operational security practices. As a major support type operation bearing on more than forty different projects, its collapse from long-established hostile control left the sponsoring station with a surfeit of contaminated cases and compromised agents. The flap analysis alone, not to mention the efforts to button up or

batten down what little could be salvaged, cost the Organization heavily. The case is so bad that I am almost at the point of agreeing with those who would prefer to see it brushed under the rug. In any event, I would never recommend that it be seen by new employees.

C. ADMINISTRATION

Nothing to Report.
